

A Upper measured concentration; three replicates per condition

Seven positive concentrations; three replicates per condition

First operationally eligible support: $H=150\ \mu\text{M}$

● Applicability ■ Operational quality

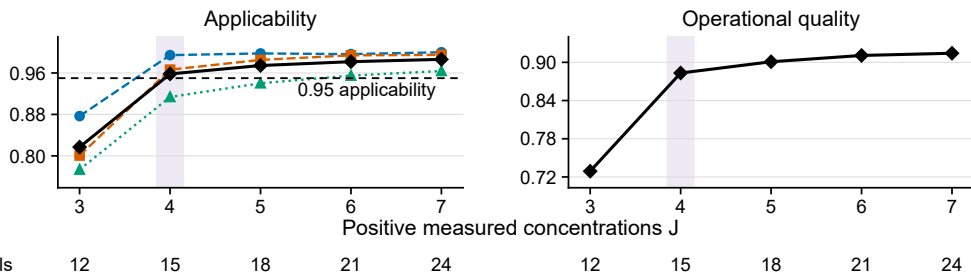

B Measured concentration count

$H=150\ \mu\text{M}$; zero-dose control retained; scoring $K_{\text{ref}} = 7$

First overall eligible count: $J=4$

● Weak ■ Moderate ▲ Strong ◆ Overall

C Paired changes from the reference

Candidate minus $J=7$; $H=150\ \mu\text{M}$
